FOREWORD ON INDEX OF TRIANGLES

In the first publication, called **THE SCIENCE OF TRIANGLES**, the theme of this science was considered from a variety of perspectives ranging between the ultimate universe and the etheric centres in relation with the etheric body of the individual human being. A prime intention was and is to “show” in a symbolical way the countless relationships between the micro-cosmos called “the human being” and the macro-cosmos of the infinite universe. One conclusion may well be accepted as a serious hypothesis that each human being is an immortal spiritual being, literally “a Son of God”. His future is timeless and endless. This concept places our present business with planet Earth in a deeper and hopefully meaningful perspective.

Since this second publication as an **INDEX** is closely integrated in this theme on triangles, it has been decided to present it in another document. The reason is that this index is in essence according to the published books all the triangles that were given by the Tibetan Master Djwhal Khul in the 24 books.

This index, embracing about 550 relationships - as the Science of Triangles is basically the Science of Relationships - has been synthesized into a number of mutually interacting and/or interlocked dynamic relationships. Again, these relationships are based on:

1. Cosmic triangles;
2. Zodiacal triangles;
3. Solar systemic triangles including the planets involved;
4. Planetary triangles of the Earth;
5. Human individual triangles, as for the groups-dynamic and for humanity as a whole

It might be noted here that there are many pairs of triangles representing a subjective and an objective triangle. For instance, the six-pointed stars are of interest here, because basically every six-pointed star is composed of two interlaced triangles; usually a “higher” and a “lower” one. The higher triangle usually is a direct effect of some divine or spiritual purpose or intention, for which the lower triangle is the instrument of manifestation of that purpose or intent. Besides that, we have many other types of relationships in geometrical patterns.

The holy triangle. "He who sees in the dark light of Shamballa penetrates to that which lies beyond our little sphere to that which can be sensed behind the holy triangle."

VENUS – MERCURY – EARTH - EA 594

VENUS – MERCURY – EARTH - EA 664, TCF 371

A triangle within the Earth planetary scheme, of these three chains. This triangle entirely concerns the centres of the planetary Logos of our Earth scheme.

EARTH chain – VENUS chain – MERCURIUS chain - EA 691, TCF 390

Two related triangles on: The seven Gods were divided into two triads and the sun.

Lower Triad: MARS - MERCURY - VENUS.

Higher Triad: MOON - JUPITER - SATURN. (the MOON veils a hidden planet.) - EA 643

The Trinity is represented by the Sun (the Father), MERCURY (the Son), and VENUS (the Holy Spirit).

SUN – MERCURY – VENUS. - EA 643

Our solar system has a triangle of "Three Synthesising Planets".

URANUS – NEPTUNE – SATURN - EA 652

Triangle of the vehicles of the three super or major principles.

Triangle closely allied to the triangle above, but a hidden mystery lies here.

- 1. VENUS – JUPITER – SATURN*
- 2. MERCURY – EARTH – MARS - EA 661*

Esoteric triangle of VENUS - JUPITER – EARTH, because the Heavenly Men of VENUS and JUPITER are magnetically linked with the Heavenly Man of our Earth scheme; it holds the solution of the mystery of this (fourth) round (of this fourth Earth chain of the fourth planetary scheme) .

VENUS – JUPITER – EARTH - TCF 367/371

In connection with this triangle the analogy lies in the fact that MERCURY and the centre at the base of the spine in the human being are closely allied.

MERCURY – MARS – EARTH - EA 662

In connection with this triangle: MERCURY and the centre at the base of the spine in the human being are closely allied. MERCURY demonstrates kundalini in intelligent activity, while MARS demonstrates kundalini latent. The truth lies hid in their two astrological symbols. In transmutation and planetary geometrising, the secret may be revealed.

MERCURY – MARS – EARTH - EA 687, TCF 1176

Triangle of the etheric inner round. The inner round is followed by those who have passed through the human stage and have developed the faculty of etheric living and can follow the etheric cycles, functioning on the three higher etheric planes in the solar system.

MARS – MERCURY – EARTH - TCF 1175/1177

In connection with our planetary Logos, the three etheric planets of our chain; EARTH - MERCURY - MARS - form a triangle of rare importance. At the present point in evolution of the logoic centres, VENUS - EARTH - SATURN form one triangle undergoing vivification through the action of kundalini; the centres are becoming slowly fourth-dimensional. VENUS rules the logoic heart centre (ray 2); SATURN the logoic throat centre (ray 3).

EARTH - MERCURY – MARS, related to:

VENUS – EARTH – SATURN - EA 688, TCF 181, 369

A systemic formation of great importance in the next round will bring these three planetary schemes in relation to each other so that a solar systemic triangle will be formed.

EARTH scheme – MARS – MERCURY schemes - EA 691

Triangle of planetary kundalini of the three etheric planets of the EARTH scheme: MERCURY and the centre at the base of the spine in the human being are closely allied. MERCURY demonstrates kundalini in intelligent activity, while MARS demonstrates kundalini latent.

Heart of the SUN – VENUS – EARTH relates to

Heart of the SUN – man's lower mental body - man's higher mental body - EA 690

A three-headed triangle, because MERCURY is one with the SUN and VENUS.

2. Heart of the SUN - God the Son.
3. Physical SUN - God the Holy Spirit." - EA 670

In connection with one of the Heavenly Men (which one cannot at this juncture be pointed out) we have one great triangle of force in these three centres, which is not yet in complete vivification.

1. Force centre: the Manu and His group, are the expression.
2. Centre: the Bodhisattva or the Christ and His adherents are the focal point.

PLANETARY TRIANGLES - PURPOSE & MEANING

Triangle of three major cosmic laws

1. *The Law of Economy affects humanity in every phase of its life.*
 2. *The Law of Attraction gains some control via the Hierarchy.*
 3. *The Law of Synthesis receives attention from many initiates and senior disciples.*
- These three great laws are aspects of the (universal) Law of Freedom.*

Law of Economy – Law of Attraction – Law of Synthesis TCF

1. *Higher triangle of Sanat Kumara, Lord of the world:*

2. *Lower triangle of planetary centres:*

Seven Kumaras – four Kumaras/ exoteric – three Kumaras/esoteric

Seven head centres – Four minor head centres – Three major head centres - TCF 181

Triangle of Heads of the three Hierarchical Departments

The Christ, assisted by the Manu and the Lord of Civilisation are three Great Lords Who represent the three divine Aspects in the Hierarchy.

2. *One point of this essential Triangle relates to world-governments, politics and statesmanship; another to world-religions and a third to world-economics and -finance. All these three Centres can therefore be depicted in the following manner: At the close of the age, the three major Centres will be in unified activity, with Sanat Kumara in Shamballa overshadowing His Representatives in the hierarchical and human Centres.*

Manu - Christ – Mahachohan

World government – World Religion - World economics & finances - DNA1 754, TEV 185, R&I 921.

In connection with one of the Heavenly Men (which one cannot at this juncture be pointed out) we have one great triangle of force in these three centres, which is not yet in complete vivification.

Force centre: the Manu and His group, are the expression.

Centre: the Bodhisattva or the Christ and His adherents are the focal point.

Centre: the Mahachohan and his followers are the exponents. - EA 687

Triangle of three Buddha's of Activity cooperating with Sanat Kumara. They do not belong to this solar system at all. They are advisors to Sanat Kumara for His initial purpose in the Council Chamber of Shamballa. They are linking intermediARIES between the Solar Logos and the informing Life of LIBRA, and relate these two great centres to our planetary Logos.

The devas are controlled by the Triangle of the three Buddhas of Activity

1. Upon advanced man, galvanising the centres above the diaphragm into activity and enabling him to respond to the Hierarchy.

2. Upon un-evolved man, enabling him to function as an ordinary, unenlightened human being.

The disciple has to become consciously aware of the planetary influences and begin to use them for the soul's purpose. The initiate has to be aware of the zodiacal influences.

These may find their way into the New Group of World Servers.

SIRIUS – Hierarchy – Heart of the SUN - R&I 414

Triangle related to Path 1 of the Way of the Higher Evolution of Earth Service, of the Way of the Higher Evolution, concerns the choice of the Master at the sixth initiation for one of the seven Paths. All these seven Paths lead either to the cosmic astral plane or to the cosmic mental plane, according to the decision made at the sixth initiation. Path One, the Path of Earth Service, is ruled by the Lord of our World. The Master then chooses one out of four kingdoms to provide the field of his sacrifice and service.

Heart of God (cosmic astral plane) – Hierarchy – One of four (higher) Kingdoms of Nature - R&I 399
SIRIUS – Hierarchy – Heart of the SUN - R&I 414

Triangle related to Path 2 of the Way of the Higher Evolution of Magnetic Work. There are found on this Path of Magnetic Work two blended influences, those of GEMINI and LIBRA. Heart of the SUN – VENUS – EARTH - R&I 406

Triangle of enormous potency related to Path 4 of the Way of the Higher Evolution - the Path to SIRIUS. The great Sun, SIRIUS, is closely related to our planetary Life. SIRIUS is to our solar Logos what the Monad is to the spiritual man. There is a relationship of very ancient date between our Lord of the World, Sanat Kumara, and the Lord of SIRIUS. The majority of liberated humanity chooses this way to the cosmic centre. The entire work of the Hierarchy is controlled from SIRIUS. The Law of Freedom governs the Life and the Lives upon SIRIUS.

2. The One about Whom naught may be said – Solar Logos – Planetary Logos - R&I 422

Every group needs its central triangle. A triad is formed by a Master and His two senior disciples during initiation. Three Masters are found in the centre of an Ashram. All exoteric groups connected with an Ashram have a group-leader and two others who are the reflection or the correspondence to the higher triad. This is part of the externalisation of the Hierarchy, which is proceeding rapidly at this time.

A nation has its chosen ruler, and its two ministers for home affairs and its foreign secretary for exoteric relationships.

Central triangle in every group.

A spiritual triangle in the head, later created by the disciple. :

1,000 Petalled lotus – Ajna centre – Alta major centre - DNA2 182

Triangle of kundalini fire in the head. The threefold channel in the spine, and the entire etheric body is gradually cleansed and purified by the action of the fire till all "dross" is burnt away. The centres become more active, and the body purer, the fire from the Ego, comes downward and a flame of real brilliance issues from the top of the head towards its source, the causal body. The two fires of matter are blended first with each other, and, secondly, with the fire of mind. The united result of this blending is the destruction (under rule and order), of the etheric web, resulting in continuity of consciousness and the "Life more abundant," or the third fire of Spirit. Rising the kundalini fires ignorantly and selfishly is dangerous. Head – Ajna – Alta major centres - TCF 122/127 134/138

Triangle of the third eye/Eye of Shiva: The "Eye of Shiva" is one of the names for the first great logic aspect. In the human being it is in the centre of the forehead between the two physical eyes. This third eye exists in etheric matter as an etheric centre of force. The pineal gland functions somewhat, before the "Eye of Shiva" becomes active. Head – Ajna - Alta major centres - TCF 1009

A "Trouble Triangle"! The activity of the ajna centre will increase greatly during the coming century.

This triangle will produce serious problems for the brain and the eyes. The ajna centre focusses the abstracted energy of the five centres up the spine and is the seat of personality power. According to the use of power throughout the body by the personality, so will the centres and organs be affected: Heart centre, Solar plexus and related organs.
